Absolutely Brilliant

Introducing TouchCenter, the picture-perfect security solution from Honeywell.

The innovative touchscreen functions as a digital picture frame and keypad in one—featuring a stunning, high-resolution display that showcases your photos in vivid, eye-popping detail, a choice of stylish silver, black or white housings and intuitive prompts that simplify security system operation by guiding you every step of the way. You can even display system status in a choice of six languages.

TouchCenter. Just another brilliant idea from Honeywell.

TouchCenter boasts the sharpest, highest-density security touchscreen display in the industry—letting you show off your treasured photos with the same glorious, real-life detail and vibrant colors as high quality prints.

- Brilliant, high-resolution 640 x 480 TFT screen brings out the best in your photos—supporting up to 64,000 colors
- Easily upload photos with the same SD card from most digital cameras
- Create and edit cinema-quality slideshows with a simple press of the touchscreen

Security Made Simple

Whether arming or disarming the system, bypassing zones or controlling lights, TouchCenter's graphics and intuitive, menu-driven prompts make operation crystal clear, with no complicated commands to remember or blinking lights to interpret.

Sleek, Stylish Design

Lets you display your photos with flair and match every décor or room

- Silver: Rich silver finishing adds luster to your photos and is perfect for kitchens with stainless steel appliances, garages and more

- Black: Dramatic color that makes your pictures pop and is ideal for living rooms, near flat screen televisions and entertainment centers

- White: Popular, classic choice that showcases photos beautifully and looks great in both modern and traditionally decorated homes

Convenience, Comfort and Control

TouchCenter lets you enjoy the benefits of home automation, providing easy fingertip control for lighting, appliances, garage doors and more.

Event Log

A press on the touchscreen is all it takes to access the event log, which lets you keep tabs on family members, track when workers and temporary guests use the system and view when the system was used.

We Speak Your Language

TouchCenter can display system status in six languages—English, European Spanish, Latin American Spanish, French Canadian, Italian or Portuguese. This is great for multilingual households or where non-English speaking guests or workers may be using the system. The voice announcement option announces the type and location of an alarm to help you act quickly in the event of an emergency.*

*Voice announcement option available in English language only.
