

NetAXS-123

Web-based access control starting at one, two or three doors.

If you thought access control was out of reach, take a look at NetAXS-123. An easy to use web-based access control system, NetAXS-123 grows with you as your business grows. It's a cost-effective way to protect one door at a time. Access control has never been this simple.

Attainable Access Control

NetAXS-123 can help you secure your facility, manage employee access, monitor locations remotely and run reports easily. And it's perfect for smaller sites such as restaurants, convenience stores, medical clinics, or health clubs. The superior scalability means you can purchase the exact amount of access control you need now—and add doors later as your business grows. Because it's web-based, it's a snap to learn how to use—just log on and you can access your system at any time, from any location. NetAXS-123 completes our full portfolio of web-based access control for installations of any size.

Product Features:

- Web-based system enables you to easily manage your access control anywhere with an Internet connection
- Modular design makes adding doors easy and affordable
- Compatible with 4-door NetAXS (NetAXS-4)
 - Add up to 120 doors downstream
- Choice of enclosures for various installations:
 - Compact Plastic Enclosure for mounting right at the door
 - Standard Metal Enclosure for traditional mounting
- Power over Ethernet (PoE) or built-in power supply reduce wiring requirements to save money on installation

CUSTOMER BENEFITS

- Simple to install
- Easy to operate and maintain
- Grows with you as your needs change
- Affordable solution
